## **American College of Surgeons Awards Reverification to Sunrise Hospital and Sunrise Children's Hospital Trauma Center**

LAS VEGAS – The trauma center at Sunrise Hospital and Sunrise Children's Hospital has recently been reverified as a Level-II center by the Committee on Trauma (COT) of the American College of Surgeons (ACoS) for providing optimal care for injured patients.

Established by the American College of Surgeons in 1987, the COT's Verification/Consultation Program for Hospitals promotes the development of trauma centers in which participants provide not only the hospital resources necessary for trauma care, but also the entire spectrum of care– from the pre-hospital phase to the rehabilitation process– to address the needs of all injured patients.

Sunrise Hospital and Sunrise Children's Hospital's trauma center has demonstrated its commitment to providing the highest quality of trauma care and has met the essential criteria outlined by the ACoS, thus gaining reverification from the organization.

By way of this verification, the American College of Surgeons recognizes that Sunrise Hospital and Sunrise Children's Hospital has proven itself as a Level-II trauma center by exhibiting consistent excellence for patients who have experienced traumatic injury.

The Level-II trauma center is defined as having the ability to provide initial definitive trauma care to all patients, regardless of the severity.

### **About Sunrise Hospital:**

Now celebrating its 50<sup>th</sup> anniversary, Sunrise Hospital & Medical Center provides the most sophisticated, quality healthcare in Southern Nevada. A Consumer Choice award-winning hospital for 13 consecutive years, the 701-bed acute care facility includes comprehensive inpatient and outpatient services such as The Nevada Neurosciences Institute– the region's first Joint Commission Certified Primary Stroke Center– an ACoS-recognized Comprehensive Cancer Center, an innovative, full-service Breast Center and specialty services in cardiac, women's health, pulmonology, critical care, complex surgery, and rehabilitation, as well as Level-II Trauma and Emergency care. The hospital has invested millions of dollars in obtaining new technologies such as the da Vinci Robotic surgery system, Intraoperative MRI machines, Gamma Knife incision-less brain surgery, and an exclusive Picture Archiving and Communication System designed to assist physicians in retrieving important patient data. Sunrise Hospital and Medical Center is located at 3186 South Maryland Parkway in Las Vegas. More information is available at [www.SunriseHospital.com](http://www.SunriseHospital.com).

### **About Sunrise Children's Hospital:**

Sunrise Children's Hospital is a dedicated specialty hospital of 244 beds offering comprehensive inpatient and outpatient services for children and expectant mothers. As Nevada's only dedicated children's hospital, Sunrise Children's staff of pediatric experts includes top physicians, specialists and sub-specialists in pediatric emergency medicine, cardiology and cardiac surgery, oncology, complex surgery, critical care, forensic maltreatment, obstetrics, and neonatology. The facility's services for healing extend through a family-centered care philosophy, where pediatric and neonate nurses, pharmacists, respiratory/physical therapists, social workers and child life specialists treat various aspects of the patients' lives. Sunrise Children's Hospital is located at 3186 South Maryland Parkway in Las Vegas. More information is available at [www.SunriseChildrensHospital.com](http://www.SunriseChildrensHospital.com).
