Sunrise Health Recognizes Outstanding Physicians on Doctor's Day, March 30

Las Vegas, NV – Sunrise Health is proud to honor its outstanding physicians during National Doctor's Day, March 30.

"Our hospitals prides themselves on delivering high-quality patient care, and without our dedicated staff of doctors, this would not be possible," said Ashlee Seymour, spokesperson for Sunrise Health. "Our physicians deliver vital diagnoses and treatments everyday that save the lives of our patients and many of our doctors even go above and beyond the call of duty by providing research and literature for the training of our next generation of caretakers."

Sunrise doctors who are committed to the advancement of medical education around the country include **Dr. Ronald M. Kline** who has edited the textbook *Pediatric Hematopoietic Stem Cell Transplantation*, published by Taylor and Francis. **Dr. Stanley Cohen**, director of stroke care for the Nevada Neurosciences Institute at Sunrise, contributed to the training of future neurologists by co-directing a residency program at the West Los Angeles VA Medical Center and by being on the full-time faculty of the UCLA Medical Center – a teaching hospital. Dr. Cohen also edited a textbook on *Management of Ischemic Stroke*, which is utilized in medical schools around the country, including the University of Nevada School of Medicine, at which Dr. Cohen is a professor. Outstanding physician **Dr. James Swift** of Sunrise Children's Hospital co-authored *Pediatric Hospital Medicine*, which outlines the complexities of inpatient management. Sunrise Health will be honoring each of these doctors and approximately 2162 more with special activities.

Celebrated since 1991, National Doctor's Day marks the anniversary of the first use of general anesthesia in surgery on March 30, 1933. Sunrise Health serves approximately 2162 physicians in specialty areas such as cardiac care, women's health, pulmonology, neurology, neurosurgery, and trauma/ emergency care.
